with Izabael DaJinn
Female Pick-Up Artist

MYTH: Seduction is manipulative?

Izabael explains why people WANT to be seduced.

MYTH: Seduction is only for straight men!

Izabael is living proof that isn't the case, and she will demonstrate why it can be used by anyone of either sex, or any sexual persuasion.

MYTH: Consciously working on seduction will kill natural romance.

Izabael explains why the opposite is true. Using her style of seduction, natural romantic situations are more likely to arise.

MYTH: Seduction leads to promiscuity.

Izabael says that's a good thing. As a culture we need to spend more time on the art of love instead of the art of war.
